CHARLES AND EMMA: THE DARWINS' LEAP OF FAITH

Henry Holt & Company. Hardback. Book Condition: new. BRAND NEW, Charles and Emma: The Darwins' Leap of Faith, Deborah Heiligman, Charles Darwin published "The Origin of Species," his revolutionary tract on evolution and the fundamental ideas involved, in 1859. Nearly 150 years later, the theory of evolution continues to create tension between the scientific and religious communities. Challenges about teaching the theory of evolution in schools occur annually all over the country. This same debate raged within Darwin himself, and played an important part in his marriage: his wife, Emma, was quite religious, and her faith gave Charles a lot to think about as he worked on a theory that continues to spark intense debates. Deborah Heiligman's new biography of Charles Darwin is a thought-provoking account of the man behind evolutionary theory: how his personal life affected his work and vice versa. The end result is an engaging exploration of history, science, and religion for young readers. Deborah Heiligman has written more than twenty books for children, most of them nonfiction, including three other biographies. She is married to Jonathan Weiner, who won a Pulitzer Prize in 1994 for "The Beak of the Finch." A National Book Award Finalist An American Library Association Best Book for Young Adults Nominee Charles Darwin published "The Origin of Species," his revolutionary tract on evolution and the fundamental ideas involved, in 1859. Nearly 150 years later, the theory of evolution continues to create tension between the scientific and religious communities. Challenges about teaching the theory of evolution in schools occur annually all over the country.
