Date :2008-1-1. We all know, writing is an ability. Writing is a practice will, rather than say it will. However, any training can not be blindly. Supervised training and unsupervised training, the effect is different. Science and scientific guidance but also divided, scientific guidance can easily open the door to writing, the guidance is not only unscientific poor little slow fees, and sometimes diametrically opposite consequences. The essay about reading about writing new curriculum training to the discussion of language based on the student's understanding of the law as the key link, the writing requirement be reduced to a series of progressive training points, point by point forward, by volume increase. Complete the book is divided into lower primary, primary and middle grades, high school grades three volumes, 30 speakers are set for each branch. According to each talk about reading practice in the order, knowledge of writing concise explanations, and then read a number of targeted Fan, finally build on the progress of consolidation of Lianbi. This training system is more scientific.
