

Creative Gardening with Indigenous Plants: A South African Guide (2nd ed)

Filesize: 1.55 MB

Reviews

A very wonderful book with lucid and perfect answers. It is probably the most incredible book i have study. Its been designed in an exceptionally simple way and is particularly just after i finished reading through this publication by which in fact transformed me, alter the way in my opinion.

Briza. Paperback. Book Condition: new. BRAND NEW, Creative Gardening with Indigenous Plants: A South African Guide (2nd ed), Pitta Joffe, Tinus Oberholzer, Creative gardening with indigenous plants, now in its second edition, is an invaluable handbook for South African gardeners. In this comprehensive guide the authors set out to popularise the use of indigenous South African plants in gardens, parks, on roadsides and anywhere where previously exotic plants were preferred. This book covers more than 300 plants, all illustrated by stunning photographs in full colour showing the whole plant as well as selected features such as flowers, fruit, leaves and bark. The text comprises a description of each plant, its usages - including medicinal uses and snippets of folklore - and advice on cultivation. Introductory chapters cover topics such as propagating plants from seeds and cuttings, gardening in the different climate regions, and using indigenous plants to attract birds and insects to the garden. Taking a very practical approach, using symbols, distribution maps, plant size and flower colour, the authors lead the reader to the correct plant to choose for the application, whether this be tree, shrub, annual, perennial, climber or water-loving plant. This all-inclusive book is a must for gardeners, horticulturists, landscape designers and anyone involved in the South African nursery industry.
