

Systematic Review of Women Veterans Health Research 2004-2008

By U. S. Department of Veterans Affairs

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 150 pages. Dimensions: 11.0in. x 8.5in. x 0.3in. Women are playing an ever increasing role in the U. S. military, representing about 15 of active military personnel, 17 of reserve and National Guard forces, and 20 of new military recruits. Concurrently, women are one of the fastest growing groups of new users in the Department of Veterans Affairs (VA) Healthcare System, with particularly high rates of utilization among veterans of Operation Enduring Freedom (OEF) and Operation Iraqi Freedom (OIF). Of the more than 100, 000 OEFOIF women veterans, over 44 have enrolled in the VA system for health care. Thus, women veterans represent an integral part of the veteran community. The body of literature dedicated to women veterans health and health care issues has grown significantly since the publication of one previous systematic review focused on women veterans. To address the growing demand and potential needs of women veterans in the Department of Veterans Affairs (VA) Healthcare System, this project sought to assess the state of women veterans health research and stratify the literature into domains relevant for VA research and policy. Womens military experiences and...
