A strict separation between the public and the private spheres, that at the same time meant sharply separated spheres of action for men and women, is only one expression of the general belief in fixed binary oppositions that characterized both American and British society in the Victorian era. Since the innate and natural difference between man and woman, as the most compelling duality, was similarly taken for granted, nineteenth-century society was also structured and determined by a rigid gender-role differentiation. It should hardly surprise us, then, that writings of the mid- to late-nineteenth century are especially preoccupied with the motif of the double. While this fascination with double figures could on the one hand be accounted for with the Victorian belief in the essential duality of life, the motif's proliferation in works written at the turn of the century...
